DEVELOPMENTAL BRAIN RESEARCH

Author Index

Albright, C.D., Tsai, A.Y., Friedrich, C.B., Mar, M.-H. and Zeisel, S.H.
Choline availability alters embryonic development of the hippocampus and septum in the rat (113) 13
Anisman, H., see McIntosh, J. (113) 97

Bailey, C.D.C., Brien, J.F. and Reynolds, J.N.
Neurosteroid modulation of the $GABA_A$ receptor in the developing guinea pig cerebral cortex (113) 21
Bambrick, L.L., see Cheng, A. (113) 107
Betancur, C., see Lépée-Lorgeoux, I. (113) 115
Brien, J.F., see Bailey, C.D.C. (113) 21
Brunjes, P.C., see Fiske, B.K. (113) 55

Cheng, A., Krueger, B.K. and Bambrick, L.L.
MAP5 expression in proliferating neuroblasts (113) 107
Corbett, R., Laptook, A., Kim, B., Tollefsbol, G., Silmon, S. and Garcia, D.
Maturational changes in cerebral lactate and acid clearance following ischemia measured in vivo using magnetic resonance spectroscopy and microdialysis (113) 37

Domenici, L., see Sermasi, E. (113) 61
Drewes, L.R., see Leino, R.L. (113) 47
Dreyer, E.B., see Heng, J.E. (113) 67

Epps, T.A., see Slotkin, T.A. (113) 1

Fiske, B.K. and Brunjes, P.C.
Ribosomal RNA expression in the developing rat olfactory bulb (113) 55
Friedrich, C.B., see Albright, C.D. (113) 13

Garcia, D., see Corbett, R. (113) 37
Gatt, A., see Mikati, M.A. (113) 139
Gerhart, D.Z., see Leino, R.L. (113) 47
Grosskreutz, C.L., see Heng, J.E. (113) 67

Hagino-Yamagishi, K., Minamikawa-Tachino, R., Ichikawa, M. and Yazaki, K.
Expression of Brain-2 in the developing olfactory bulb (113) 133
Harris, B.S., see Naqui, S.Z.H. (113) 75
Heng, J.E., Zurakowski, D., Vorwerk, C.K., Grosskreutz, C.L. and Dreyer, E.B.
Cation channel control of neurite morphology (113) 67
Higashi, H., see Park, J.-S. (113) 29
Holmes, G.L., see Mikati, M.A. (113) 139
Housman, C., see Towfighi, J. (113) 83

Ichikawa, M., see Hagino-Yamagishi, K. (113) 133

Kim, B., see Corbett, R. (113) 37
Krueger, B.K., see Cheng, A. (113) 107

Laptook, A., see Corbett, R. (113) 37
Leino, R.L., Gerhart, D.Z. and Drewes, L.R.
Monocarboxylate transporter (MCT1) abundance in brains of suckling and adult rats: a quantitative electron microscopic immunogold study (113) 47
Lépée-Lorgeoux, I., Betancur, C., Rostène, W. and Pélaprat, D.
Differential ontogenetic patterns of levocabastine-sensitive neurotensin NT_2 receptors and of NT_1 receptors in the rat brain revealed by in situ hybridization (113) 115
Liu, Z., see Mikati, M.A. (113) 139

Mar, M.-H., see Albright, C.D. (113) 13
Mauger, D., see Towfighi, J. (113) 83
McIntosh, J., Anisman, H. and Merali, Z.
Short- and long-periods of neonatal maternal separation differentially affect anxiety and feeding in adult rats: gender-dependent effects (113) 97
Merali, Z., see McIntosh, J. (113) 97
Mikati, M.A., Werner, S., Gatt, A., Liu, Z., Rahmeh, A.A., Rachid, R.A., Stafstrom, C.E. and Holmes, G.L.
Consequences of alpha-amino-3-hydroxy-5-methyl-4-isoxazolepropionic acid receptor blockade during status epilepticus in the developing brain (113) 139
Minamikawa-Tachino, R., see Hagino-Yamagishi, K. (113) 133

Nagata, K., see Park, J.-S. (113) 29
Nakatsuka, T., see Park, J.-S. (113) 29
Naqui, S.Z.H., Harris, B.S., Thomaidou, D. and Parnavelas, J.G.
The noradrenergic system influences the fate of Cajal–Retzius cells in the developing cerebral cortex (113) 75

Park, J.-S., Nakatsuka, T., Nagata, K., Higashi, H. and Yoshimura, M.
Reorganization of the primary afferent termination in the rat spinal dorsal horn during post-natal development (113) 29
Parnavelas, J.G., see Naqui, S.Z.H. (113) 75
Pélaprat, D., see Lépée-Lorgeoux, I. (113) 115

Rachid, R.A., see Mikati, M.A. (113) 139
Rahmeh, A.A., see Mikati, M.A. (113) 139
Reynolds, J.N., see Bailey, C.D.C. (113) 21
Rostène, W., see Lépée-Lorgeoux, I. (113) 115

Sawyer, K.J., see Slotkin, T.A. (113) 1
Seidler, F.J., see Slotkin, T.A. (113) 1
Sermasi, E., Tropea, D. and Domenici, L.
Long term depression is expressed during postnatal development in rat visual cortex: a role for visual experience (113) 61
Silmon, S., see Corbett, R. (113) 37
Slotkin, T.A., Epps, T.A., Stenger, M.L., Sawyer, K.J. and Seidler, F.J.
Cholinergic receptors in heart and brainstem of rats exposed to nicotine during development: implications for hypoxia tolerance and perinatal mortality (113) 1
Stafstrom, C.E., see Mikati, M.A. (113) 139
Stenger, M.L., see Slotkin, T.A. (113) 1

Thomaidou, D., see Naqui, S.Z.H. (113) 75
Tollefsbol, G., see Corbett, R. (113) 37
Towfighi, J., Housman, C., Mauger, D. and Vannucci, R.C.
Effect of seizures on cerebral hypoxic–ischemic lesions in immature rats (113) 83
Tropea, D., see Sermasi, E. (113) 61
Tsai, A.Y., see Albright, C.D. (113) 13

Vannucci, R.C., see Towfighi, J. (113) 83
Vorwerk, C.K., see Heng, J.E. (113) 67

Werner, S., see Mikati, M.A. (113) 139

Yazaki, K., see Hagino-Yamagishi, K. (113) 133
Yoshimura, M., see Park, J.-S. (113) 29

Zeisel, S.H., see Albright, C.D. (113) 13
Zurakowski, D., see Heng, J.E. (113) 67
